Assignment 1

You should create a project for Windows Forms Application with one form. Design of the form is also given above. The form elements and their properties are as listed:

1. GroupBox1: Contains two radio buttons.
2. Two radio buttons.
 - a. RedRadioButton: Color of the text of DisplayLabel will be red.
 - b. BlackRadioButton: Color of the text of DisplayLabel will be black.
3. NameTextBox: Reads string value.
4. ProgrammerPictureBox: Displays picture of the programmer. Visible property is False when the program is run.
5. PictureCheckBox: Picture is visible when the item is checked and invisible again when the item is deselected.
6. DisplayButton: Displays "Programmed by 'Text of the NameTextBox'" in DisplayLabel field.
7. PrintButton: Prints the form.
8. ExitButton: Close the application.
