

# Recreate Facebook in Android Studio

---

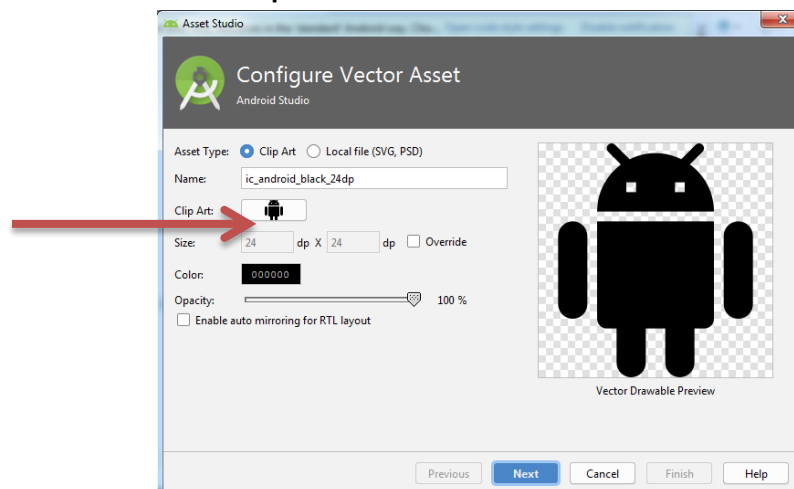

- 1- After opening the app page, change the color of the status bar to Blue.
- 2- Find 2 pictures for profile and vocer page of the facebook and then copy them into the drawable folder.
- 3- First add the cover image through <ImageView> and then define a constraint layout for the position of the picture.

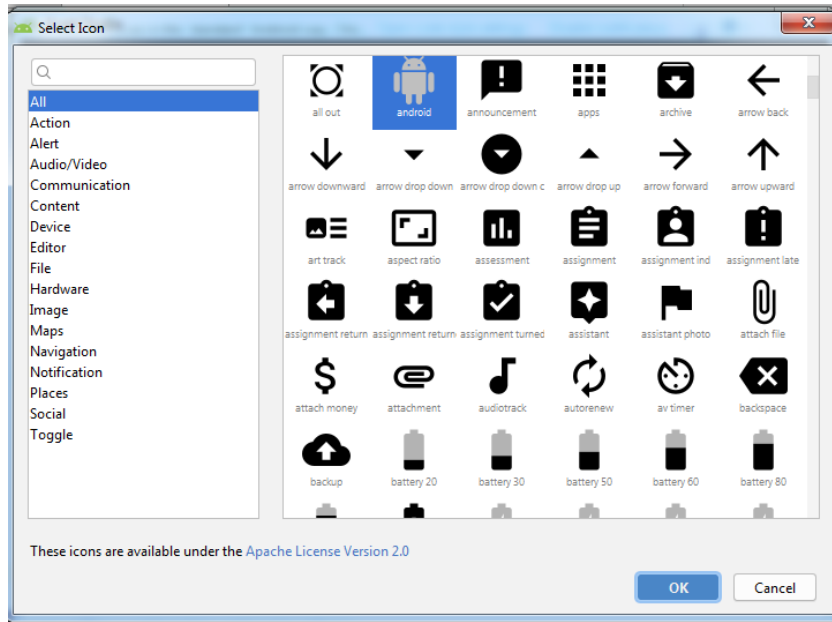

```
<ImageView  
    android:layout_width="0dp"  
    android:layout_height="200dp"  
    android:scaleType="CenterCrop"  
    android:src="@drawable/coverimage"  
    app:layout_constraintLeft_toLeftof="parent"  
    app:layout_constraintRight_toRightof="parent"
```

- 4- Second add the profile image through <ImageView> and then define a constraint layout for the position of the picture.

```
<ImageView  
    android:layout_width="200dp"  
    android:layout_height="200dp"  
    android:layout_marginTop="100dp"  
    android:scaleType="CenterCrop"  
    android:src="@drawable/profileimage"  
    app:layout_constraintLeft_toLeftof="parent"  
    app:layout_constraintTop_toTopof="parent"  
    app:layout_constraintRight_toRightof="parent"
```

- 5- To add our name below the profile picture, add a TextView and write your full name into it.
- 6- From the left panel, find the res folder then right click on the drawable folder → New → Vector Asset → Click on icon of the **Clip Art**

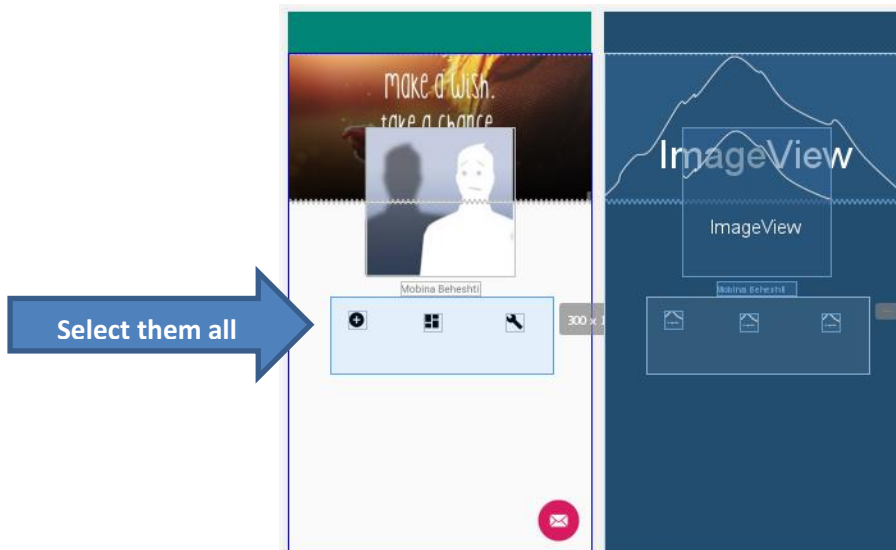

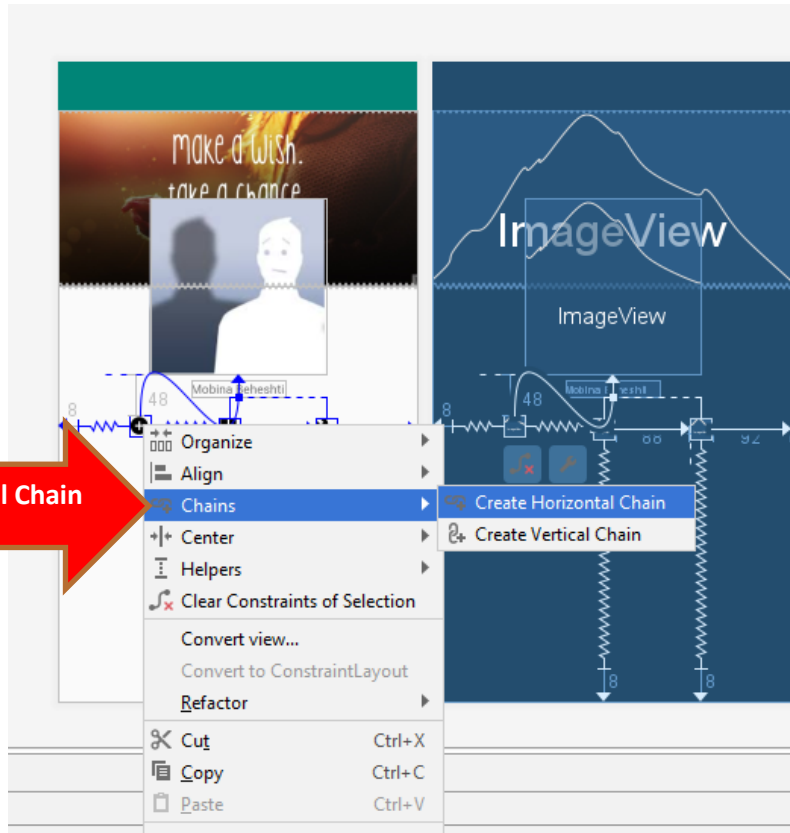

7- Add the following icon below your name.

8- After adding them, arrange them, select them all, right click on it, then choose Chains → create horizontal chain

Select Create Horizontal Chain
