

ITEC447 – WEB PROJECTS

TERM PROJECT: You need to build a news website as discussed in the class. Your website should contain:

- **Banner (Image, Flash or etc.),**
 - **Text (Detailed Information),**
 - **Supporting images and videos,**
 - **Background (Color, Image or etc.),**
 - **Social media links (Facebook, Twitter and etc.),**
 - **E-mail form (HTML, JavaScript, PHP, MySQL and etc.),**
 - **Other related pages and information,**
 - **Resources (if you have any).**
-
- You can use any editor (and any programming language such as PHP or ASP.NET if it is necessary) while you are building your website. However, Content Management Systems are not allowed.
 - You can use <https://www.trtworld.com> , <https://www.aljazeera.com> , <http://www.bbc.com/news> as a reference.
 - Make a comment in your code to explain what you are doing.
 - Host your project on the hosting provided in the class.
 - Zip the project file and send to my email before 11:59 pm on the deadline date.

Good Luck!!!
